GFRC

Contact JCF today for all your Architectural needs!

JCF Companies, LLC began in our backyard 30 years ago. We are now a 60,000 square foot Production Powerhouse.

Our shops design & manufacture molds for cast stone, precast concrete, GFRC, lightweight stone and much more. We also mass-produce all these products.

We only hire craftsmen with years of experience who carefully insure that every item that leaves our facilities are second to none. We can make any size, shape, or profile. Not only do we make all standard items, but also ANYTHING custom you can imagine

Using our state of the art and proprietary systems, JCF is able to take your designs and turn them into reality.

We are fast, efficient and affordable. We would love to help you on your next project. We have a real passion for this and you will not be disappointed!

Architectural Foam - Concrete Form Liners - Multi Axis Machining - Water Jet
